

Money Drawing Spell

This a very old Southern Hoodoo charm for drawing wealth into your life. It was taught to me several years ago by my friend Glenda and I have used it even since with great success and recommended it to others.

You will Need:

A tea cup

Uncooked Rice

Coins of all denominations

First, take the tea cup and place a layer of rice on the bottom and then add a few coins and cover them with more rice. Continue the process until the tea cup is filled to the top and then place it either by your front door or on your spiritual altar. You may also choose to keep it in your place of business to attract customer and increase profits. It's as simple as that!

The idea behind this powerful charm is that rice is a symbol of abundance and wealth and that as the humidity in the air swells the rice, so will your income grow! Also, if you would like to attract love into your life as well as money, you can dye the rice with red food coloring before placing it in the tea cup with the coins. You may continue to use this charm continuously, but it is advisable to change the rice once a year.

So, please give this charm a try and let me know how the results! Also, if you are interested in any of my services as a reader, spell caster or Voodoo priest or just want to say "Hi" please don't hesitate to contact me.

Peace and blessings to you and thank you for visiting my site!

Love and light,

James Duvalier
